

SAVE ROLO'S SIGHT!

**Rolo is 2-years old and going blind.
Please help us Save His Sight....**

Imagine walking around with only the ability to see shapes and light... This is how Rolo lives everyday of his life, but it wasn't always so. Rolo, a 2-year old Fox Terrier, was rescued from a very high-kill shelter in Ohio by Tara's House. He was seen by several veterinarians during his short time with us, receiving a clean bill of health at each visit. Approximately, three-weeks ago, Rolo developed opaqueness in his right eye that quickly resulted in a full cataract. Now, his left eye is developing the same condition and we only have a limited time to act before he is permanently blind in each eye.

Tara's House needs to admit Rolo to a board-certified ophthalmologist for corrective surgery within the week. His care for this very serious condition cost more than \$4,000. As a growing non-profit animal rescue, we don't have the financial resources available to save his sight, so we're asking for your assistance. 100% of your financial donation will go to Rolo's surgery and aftercare. Each contributor to *Save Rolo's Sight* will receive a special set of note cards as our way to say "thank you." Please help us today to save Rolo's sight. Act now because time is limited.
